

FOR YOUR SAFETY

We've taken the following steps:

LOBBY AND FRONT COUNTER

- Plexiglass shields have been installed between the member and the employee. All employees must wear a face mask.
- Social Distancing: Markers have been placed on the floors and in front of seats indicating the safest distance between you and your fellow patrons.
- Hand Sanitizer is available in the lobby.
- Contactless Check-in: Please check in with your ID or ask an associate for details. We will not be using fingerprint scanners.
- Payment: We encourage all members to use a credit card to avoid contact.
- Store Tours will be conducted by employees wearing a face shield in addition to a mask.

PERSONAL PROTECTIVE EQUIPMENT

- For everyone's safety our employees are wearing masks, face shields and gloves.

CLEANING

- At Electric Sun Tanning Salon, cleaning is job#1. We only use hospital grade sanitizers on all surfaces. These sanitizers have proven effective in killing COVID-19 Virus and over 100 other viruses and bacteria.
- Tanning Rooms: After each use, a trained employee will apply sanitizer to the tanning bed, and spray booth. Special attention to all touch points in the room, including door handles, button controls and equipment handles.
- Restrooms: Restrooms are cleaned every 2 hours - thoroughly sanitized with our hospital grade sanitizer.

If you have any concerns about the cleaning and protective standards at this location, please ask to speak to a member of our management team or email us at info@electricsunsalons.com.
